Index

A

Absorption, percutaneous, of vitamin B_{12} in rat and guinea pig, 261.

ACKERMAN, C. J. See Ruark, Edwin W., 165.

Acouchi, biosynthesis of ascorbic acid, 331.

Acyrthosiphon pisum (Harris), pea aphid, mineral nutrition of, 43.

Adipose tissue, of fasted and fed meal-eating rats, lipogenesis control, 460.

Adrenalectomy, effect on methionine adenosyltransferase levels in rat liver, 274.

Adrenals, weight of cockerels, influence of vitamin A deficiency, 384.

Adults, human, nitrogenous factors affecting adequacy of rice to meet protein requirements, 429.

Age, relationship of calcium and phosphorus nutrition during adult life and osteoporosis in aged mice, 30.

Agouti, biosynthesis of ascorbic acid, 331.

AHLUWALIA, B., G. PINCUS AND R. T. HOLMAN. Essential fatty acid deficiency and its effects upon reproductive organs of male rabbits, 205.

Albumin content of rat hepatic cells at different levels of protein intake, 497.

Alcohol dehydrogenase activity, quantitative measurement within liver lobule of rats after prolonged ethanol ingestion, 286.

Algae protein, supplementary value in human diets, 281.

ALI, R. See Evans, J. L., 417.

Alkaline phosphatase, plasma, activity, and dietary pentoses, in chicks, 491.

ALLAWAY, W. H. See Ehlig, C. F., 121.

American Institute of Nutrition, invitation for nominations for 1968 awards, 143, 412, 521.

American Institute of Nutrition, Proceedings of the 31st Annual Meeting, 507.

Amino acid(s), first-limiting, and minimum corn protein requirement for adult men, effect of nonspecific nitrogen supplementation, 377.

— — imbalance and liver glycogen changes in rats fed glycine, 133.

— —, limiting, assimilation into protein from imbalanced dietary sources, 455.

— — supplementation, effect on plasma free amino acid concentrations in growing lambs, 339.

AMSDEN, R. T. See Yacowitz, H., 389.

Analysis, thermal neutron, of vanadium in fruits, vegetables, animal foods and drinking water from various geographical areas, 183.

Anemia, hemolytic, development in rats fed methionine, 104.

Aortic extensibility, changes in sulfate-deprived rats, 399.

Aphids, pea, *Acyrthosiphon pisum* (Harris), mineral nutrition of, 43.

APPLEDORF, HOWARD, AND STEVEN R. TANNENBAUM. Specific hunger for thiamine in the rat: selection of low concentrations of thiamine in solution, 267.

L-Arabinose and D-xylose metabolism by chicks, 491.

Arginine deficiency in two strains of chickens selected for differences in dietary requirements of arginine, 365.

— requirement of young rabbits, 118.

ARNOLD, DOUGLAS L. See Nesheim, Malden C., 365.

ARRINGTON, L. R., R. A. SANTA CRUZ, R. HARMS AND H. WILSON. Effects of excess dietary iodine upon pullets and laying hens, 325.

Arsenic, effects on growth, survival and tissue levels of mice, 245.

Ascorbic acid, biosynthesis in the acouchi and agouti, 331.

— —, plasma, and growth rate, effect of controlled temperatures, in swine, 99.

Awards, American Institute of Nutrition, invitation for nominations for 1968, 143, 412, 521.

B

BABATUNDE, G. M., W. G. POND, L. KROOK, L. D. VAN VLECK, E. F. WALKER, JR. AND P. CHAPMAN. Effects of dietary safflower oil or hydrogenated coconut oil on growth rate and on some blood and tissue components of pigs fed a fat-free diet, 293.

Bacteria, rumen, individual, enzymatic determination of protein quality, 357.

BALASSA, JOSEPH J. See Schroeder, Henry A., 245.

BARNES, RICHARD H. See Kwong, Eva, 233.

BARNES, RICHARD H., AND EVA KWONG. Choline biosynthesis and choline requirement in the rat as affected by coprophagy, 224.

BARTH, K. M. See Knapka, J. J., 79.

BECK, STANLEY D. See Retnakaran, Arthur, 43.

BERG, BENJAMIN N. Maintenance of pregnancy in protein-deprived rats by transitory protein supplements during early gestation, 66.

BERGEN, W. G., D. B. PURSER AND J. H. CLINE. Enzymatic determination of the protein quality of individual rumen bacteria, 357.

BIERENBAUM, M. L. See Yacowitz, H., 389.

Biosynthesis of ascorbic acid in the acouchi and agouti, 331.

Biotin deficiency and orotic acid fatty liver in rats, 374.

Bones, growth, sulfation and vitamin A in chicks, 467.

Bovine growth hormone, effect on methionine adenosyltransferase levels in rat liver, 274.

BLACK, A. L. See Emery, R. S., 348.

BLACKMON, D. M. See Miller, W. J., 71.

BROCK, FRANCES E. See Morrison, George R., 286.

BROWN, D. G. See Knapka, J. J., 79.

BROWN, GLENN R. Changes in aortic extensibility found in sulfate-deprived rats, 399.

BROWN, R. E. See Emery, R. S., 348.

Buffering capacity, effect on calcium utilization and feed efficiency in growing rat, 417.

Burros, evaluation of polyethylene, chromic oxide and cerium-144 as digestibility indicators in burros, 79.

Bursa weight of cockerels, influence of vitamin A deficiency, 384.

C

Calcium and phosphorus nutrition, relationship during adult life and osteoporosis in aged mice, 30.
—, dietary, effects on lipid metabolism in rats fed saturated or unsaturated fat, 389.
— metabolism and kinetics in intact and parathyroidectomized cows given parathyroid extract, 253.
— utilization and feed efficiency in growing rat as affected by dietary calcium, buffering capacity, lactose and EDTA, 417.
Calves fed soybean and milk protein diets, body weight changes, pancreas size and enzyme activity, and proteolytic enzyme activity and protein digestion in intestinal contents, 215.
— fed soybean and milk protein diets, exocrine pancreatic secretion, 86.
—, zinc-deficient, orally administered zinc-65 absorption, excretion and retention in tissues, 71.
CARDI, ETTORE. See György, Paul, 443.
CAREW, L. B., JR., AND F. W. HILL. Effect of diethylstilbestrol on energy and protein utilization by chicks fed a diet high in fat content, 393.
Cerium-144, polyethylene and chromic oxide as digestibility indicators in burros, 79.
CHANDRASAKHARAM, N., A. FLECK AND H. N. MUNRO. Albumin content of rat hepatic cells at different levels of protein intake, 497.
CHAPMAN, P. See Babatunde, G. M., 293.
CHEN, SHIRLEY CHII-SHYA, HAZEL M. FOX AND C. KIES. Nitrogenous factors affecting the adequacy of rice to meet the protein requirements of human adults, 429.
Chicks, embryos nourished by yolk fractions, growth and development, 111.
Chicken(s), and rats, separation of soybean whey into fractions with different biological activities in, 479.
—, L-arabinose and D-xylose metabolism by chicks, 491.
—, effect of diethylstilbestrol on energy and protein utilization by chicks fed a high fat diet, 393.
—, two strains selected for differences in dietary requirements of arginine, factors affecting response to arginine deficiency, 365.
—, vitamin A, sulfation and bone growth in chicks, 467.
Chlorella pyrenoidosa, algae, supplementary protein value in human diets, 281.
Cholesterol, free, of testes, decrease with fatty acid deficiency in male rabbits, 205.
— in chick plasma, effect of graded levels of dietary pentoses, 491.
— -peanut oil and stock diets, plasma lipids in maternal and fetal rabbits fed, 435.
—, serum, effects of feeding pigs no fat, hydrogenated coconut oil or safflower oil, 293.
Choline biosynthesis and requirement in the rat as affected by coprophagy, 224.
— biosynthesis, liver fat, and growth in choline-deficient rat, effect of dietary supplements of cystine, 233.
— deficiency in rats, effect of vitamin B_{12}, 403.
—, physiological role in guinea pigs, 317.
—, vitamin B_{12} and related substances in dietary hepatic injury in rats, 443.
CHRISTENSEN, DAVID A. See Nesheim, Malden C., 365.
Chromic oxide, polyethylene and cerium-144 as digestibility indicators in burros, 79.
CLINE, J. H. See Bergen, W. G., 357.
Cobalt, copper, manganese and molybdenum balance in preadolescent girls, 197.
Cockerels, influence of vitamin A deficiency on testes, bursa Fabricius, adrenal and hematocrit, 384.
Coconut oil, hydrogenated, dietary, effects on growth rate and on some blood and tissue components of pigs fed a fat-free diet, 293.
Cold temperatures, controlled, effect on growth rate and plasma ascorbic acid values in swine, 99.
Collagen content of rats' aortae, effect of level of dietary sulfate, 399.
Copper, manganese, cobalt and molybdenum balance in pre-adolescent girls, 197.
— metabolism in early postnatal period of piglet, 237.
—, zinc and iron concentrations in hair and other tissues with low zinc and low protein intakes in rats, 173.
Coprophagy, effect on choline biosynthesis and requirement in rats, 224.
Corn oil, recovery of rat tissue lipids from essential fatty acid deficiency: plasma, erythrocytes and liver, 23.
Corn protein, minimum requirement, and first-limiting amino acid, effect of nonspecific nitrogen supplementation for adult men, 377.
Corpus luteum powder, growth factor in for goitrogen-fed rats, 165.
Cortisone treatment, effect on methionine adenosyltransferase levels in rat liver, 274.
Cow(s), lactating, DL-1,2-^{14}C metabolism, 348.
—, parathyroidectomized, and intact, given parathyroid extract, calcium metabolism and kinetics, 253.
CRAGLE, R. G. See Knapka, J. J., 79.
Cystine, dietary, supplements, effect on growth, liver fat and choline biosynthesis in choline-deficient rat, 233.

D

DAM, RICHARD. See Lee, Sunghee Kim, 281.
DARBY, WILLIAM J., AND ALI HASSAN. William Hawkins Wilson, biographical sketch, 1.
Diet(s), human, supplementary value of algae protein, 281.
— and other factors, effect on methionine adenosyltransferase levels in rat liver, 274.
—, soybean and milk protein, body weight changes, pancreas size and enzyme activity, and proteolytic enzyme activity and protein digestion in intestinal contents from calves, 215.
Diethylstilbestrol, effect on energy and protein utilization by chicks fed a high fat diet, 393.
Domestication of jungle fowl, diminished sensitivity to caloric regulation, 191.
DOOLEY, C. L. See Howe, E. E., 261.
DRAPER, H. H. See Shah, B. G., 30.

E

Egg(s) production, fertility, hatchability, embryonic mortality and incubation time, effects of excess dietary iodine upon laying hens, 325.
— production, weight and hatchability in essential fatty acid-deficient hens, 148.
— yolk fractions, growth and development of chick embryos nourished by, 111.
EHLIG, C. F., D. E. HOGUE, W. H. ALLAWAY AND D. J. HAMM. Fate of selenium from selenite or seleno-methionine, with or without vitamin E, in lambs, 121.
